PHILIP MORRIS PRODUCTS, INC.

INTER-OFFICE CORRESPONDENCE

Richmond, Virginia

To: J. E. Wickham

Date: January 27, 1989

From: S. W. Laffoon

Subject: International Activity - 1988

A total of 5163 international samples were received for testing in 1988, a 2% increase over the total of 5073 samples received in 1987. The largest increase (33%) was seen in the number of developmental samples received in 1988. Routine monthly production samples (those reported under a Test #) increased 23%. Decreases were noted for non-routine samples submitted by TTG, product development and export (20%) and incoming material evaluation samples (82%). A summary of the 1986-1988 international activity for the Cigarette Testing Services Division is reported in the attached tables.
